STRATEGIC PLANNING

TARGET AUDIENCE(S) Define your target audience(s). What is their ‘profile’? Why do they follow you? How do they engage with you? What do they love about your brand, content, and products?			
SEASONAL DRIVE PERIODS Across the next six months, what key seasons or events will influence your business and the products you sell? When do people typically buy your products for these seasons or events? When should you promote those products to your customers to ensure they make a timely purchase?			
BALANCING BRAND AND PRODUCT How do you want to balance your ‘brand personality’ with product promotion across social media? What combination of lifestyle and promotional product posts do you want to achieve?			

CONTENT GOALS & THEMES

BUSINESS GOALS

Outline the main business goals that your content will support. For example, are you aiming to increase brand awareness, drive sales, build community, or launch a new product?

CONTENT GOALS

Define specific goals for your content. Do you want to increase engagement, build loyalty, or drive traffic to your online store? Different content may have different goals.

TARGET AUDIENCE

Clarify who you're creating content for, including any specific segments or different audiences on certain platforms. Consider both demographics and psychographics.

CONTENT THEMES
